CONDITION OF THE MARKETS

Increased Activity in the Wheat Pit, with a Steady Advance in Prices.

Corn Shows Less Activity, but the Situation Is Not Without Elements of Strength-Oats Dull-Provisions Weak and Lower.

MONEY, BONDS AND STOCKS.

Increased Business at New York, with a Quiet but Firm Closing. NEW YORK, July 11 .- Money on call was easy

at 1@14 per cent. Prime mercantile paper, 31 26 per cent.

Sterling exchange was dull, but steady, at \$4.87 for 60-day bills and \$4.884 for demand. The total sales of stocks to-day were 257,720 shares, including the following: Canada Southern, 3,561; Delaware, Lackawanna & Western, 5,360; Erie, 12,900; Lake Shore, 8,980; Louisville & Nashville, 13,614; Missouri Pacific, 9.930; Northwestern, 7,300; Northern Pacific preferred, 12,210; Oregon Transcontinental, 4,425; Reading, 43,220; Richmond & West Point, 4,150; St. Paul, 40,215; Texas Pacific, 15,303;

Western Union, 19,836. The stock market was a little more active today, but the increased business was confined to the transactions of the first hour, after which the market was comparatively dull, the dealings for the other hours scarcely equaling those of the first hour. The tone of the market was again feverish, indications of free realizations were plentiful, and, notwithstanding the buy ing, prices failed to advance to any marked extent. The traders, many of whom have lately been upon the "bull' side of the market, were free sellers all around the room, but London was a buyer, as was also Chicago, and the pressure exerted upon the served to keep prices from advancing much, but made no impression upon the list. Louisville & Nashville was bought beavily by the foreigners, and it is the only stock showing a marked improvement this evening. There was a good deal of talk about the cable settlement, but no progress was reported, and the "bears" were aided by reports of a strike upon the Northwestern and the Burlington & Quiney, but the buying toward the close took on a more confident character, and some covering was done by the traders. St. Paul, Western Union and Reading were the centers of attraction, but very decided movements were made in some of the specialties, among which Milwaukee, Lake Shere & Western was most conspicuous, advancing 31 per cent. The market opened with a rush, and was very strong, first prices showing advances over the final figures of last evening of to I per cent. Great activity shown during the first hour, the sales reached 127.000 shares, but the tone of the dealings was feverish and uncertain, though gains extending to about a point were made in some stocks, St. Paul & Missouri Pacific leading. There was a marked decrease in the amount of business done after that time, and some reaction was had, though very few stocks were bought below the opening prices. The tone of the market continued feverish throughout until the last hour, when the upward movement became more pronounced and Texas Pacific, Louisville & Nashville and New England came to the front. The close was quiet and firm at fractions better than the opening prices. Almost the entire active list is higher, but the gains, except in Louisville & Nashville, which is up 2] per cent, are for frac-

tions only. The railroad bond market was unusually active, the sales of all issues reaching \$2,097,000, out of which \$335,000 were in Texas Pacific seconds, \$135,000 in Texas Pacific firsts, and \$155, 000 in Erie seconds. The important changes in quotations are few.

Government bonds were fairly active and firm. State bonds were duli and steady. Closing

CHICAGO, July 11.—Business was brisk again on Change to-day. The action of the wheat market was doubtful early, but a firm undertone, shaped by bullish cables, developed into a regular advance in prices later in the day. The clearances at New York were but 8,000 bushels, and this, with the recollection of the improved condition of home crops reported yes-terday, made the "buils" cautious, and encouraged some sellers who believed the government figures would have more effect to-day than they did on Tuesday. The later cables, public and private, confirmed the reports of snow in England and very bad weather on the continent. On this the foreigners were said to be buyers here and at New York. The reports about the boat loads taken for export differed from 5 to 25 boats, but the effect was bullish. The "short" element in the pit took a little fright after 12 o'clock. A heavy speculator, who was not able to be on the floor, stood by his "long" wheat. When the crowd got the desire to buy there was little for sale, and July was at a big premium over August. The prices of August, which ranged early between 80s and 80%c, and at noon was at about the close last night, 804c. suddenly started upward and in a few minutes

touched 814c. This was followed by a lull and a return to 81 081 c, when, twenty minutes be-fore the close, a second bulge took place. The "bull" feeling prevailed up to the very close, and prices at 1 P. M. were the outside for the session, with August ic over last night, at 81%. Other futures closed: July, 83%; September, 811c; December, 831c. The corn market was quiet compared with wheat. But the prices barely held their own at the close for early futures, while the feature of the pit was the low price of October. The lowest prices of the day were at the the time of the early dip in wheat, when August touched 482c, the outside price of the session, and at the close it was the same as last night, 49tc. July sold at 48t 249c to close. October sold from 48 c down to 48c and closed at 48ic, or ic lower. Favorable crop weather and indications that July contracts had been pretty well filled caused a heavy early market. July ranged lie lower than yesterday's closing, but at the decline the demand became quite vigorous again, and there was a reaction and the closing was steady and lower. July ranged lie lower than yesterday's closing, but at the decline the demand became quite vigorous again, and there was le reaction; the closing was steady and only to lower. August declined to during the early weakness and reacted to other deliveries averaged about to lower. Considerable interest was an increased speculative business transacted.

manifested in the market for hog products, and The general surroundings of the trade were favorable to a weaker market, the receipts of hogs being liberal and prices lower, while the advices from depending markets were less favorable to holders. Under these circumstances there was considerable desire to sell products for August and September deliveries, especially by leading local operators and manufacturers, while the demand was not particularly urgent, excepting from "shorts." Prices for all the leading articles declined materially during the middle of the session, but toward the close the market showed a little more steadiness in a general way and prices railied again. Pork declined 40 245c, but rallied 10 215c. The decline in lard amounted only to .05 2.07 c, and was wholly regained. Short ribs fell off .07 c to . oc, but railied later .02 2.05c. 1,600; shipments, 280. INDIANAPOLIS MARKETS. Trade Moderately Active-Eggs, Poultry and Sugars All Higher.

INDIANAPOLIS, July 11. There were but few fluctuations in values today, and those upward in their tendency. Shippers are paying 12 to 13 cents for candled eggs. Potiltry is in good demand at the higher prices, and butter readily, if choice, brings our best quotation. Blackberries, both cultivated and wild, in large supply. Cultivated berries are selling at \$1.75 to \$2 per crate; wild, prices nominal. Black and red raspberries are in good supply and prices weakening somewhat. Apples are in light supply, that is, desirable fruit. Potatoes in good supply; prices well maintained and ranging too high to make a brisk demand. Other vegetables in fair supply at unchanged prices. Grocers report a large demand for sugars, and prices to-day moved up another t of a cent, and are still upward in tendency. Coffees weak in tone but unchanged. Other groceries firm. The hide market centinues tame in tone, and one of the dealers says were the roads to carry hides East at 5 cents per 100 pounds he did not believe it would have a favorable effect on the market. The Indianapolis houses are handling more hides this year and making less money than last year, and the present state of affairs bids fair to exist for some weeks to come. The flour market is more active and indications are favorable to better prices. Oranges and lemons in good demand

and firm at the revised quotations of to-day.

There is no necessity of handling a bull unless to move him from one place to another. Have a yard with a strong open fence connected with his stable, so that he can go in and out when he pleases; a partition in this yard with a gate in it and another gate opening outside will allow of the use of the bull without handling him or running the slightest risk of life or limb. The yard will give him exercise enough if he is fed prop-erly, and the comfort of knowing that every-thing is safe will more than pay all the expense.
